Dear Mr. Crawford:

Enclosed are the PA and SI for the Cranston Sanitary Landfil, which you requested during our conversation this morning. The PA was completed in 1982 by Ecology and Environment, a former EPA FIT contractor. The SI appears to have been completed prior to the PA, as was often the case at the outset of Superfund. As I indicated to you this morning, this PA may be considered a combination PA/SI.

Please call me at 617-573-9698 if you have any questions.

Sincerely,

Deborah J. Pernice  
Superfund Support Section  
Waste Management Division
